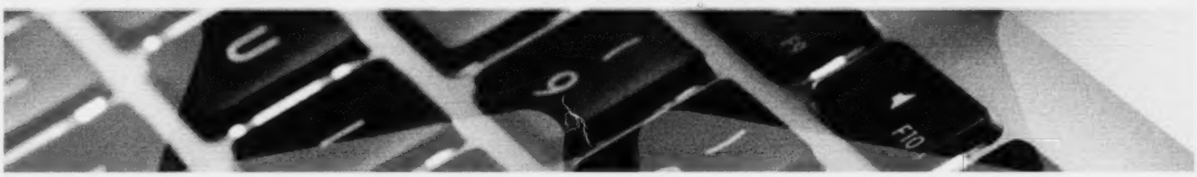
Trade-marks Journal

2017-07-05 — Vol. 64 No. 3271



Canada

Trade-marks Journal

Vol. 64 No. 3271

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

Scientific, geodesic, photographic, cinematographic, measuring, signalling, checking (supervision) apparatus and instruments namely scientific prisms, magnetic compasses for surveying, surveying instruments, level measuring machines for surveying, levelling rods for surveying, test pins for testing printed circuit boards, optical inspection apparatus for detecting defects on surfaces of wafers and printed circuits, optical inspection apparatus for inspecting the circuitry used in cellular telephones, digital cameras, video cameras, camcorders, computers; optical apparatus and instruments, namely eyeglasses, optical lenses, eyeglass lenses; apparatus for recording, transmitting, reproducing sound and images, namely audio and video disc players, audio and video disc recorders, radios, audio and video receivers, video player-recorders, televisions; magnetic recording media, namely acoustic and optical discs, floppy discs, CD-ROMs and DVD-ROMs, all these products being blank and prerecorded, containing partial and agronomic data for the technical-economic guidance and management of farming processes; information processing apparatus and computers, namely computer hardware for data processing; computer programs, software packages and computer software for ensuring management and traceability of products, as well as quality control, in the agricultural, agro-industrial, and environmental fields, all the aforesaid goods being used in the agricultural and environmental fields.

SERVICES

Class 35

(1) Online advertising for others via a computer communications network, advertising services for the goods and services of others; sales promotion, for others, of goods and services through the distribution of advertising material and promotional contests; dissemination of advertisements for others; rental of advertising space; business management; business administration, office functions , namely secretarial services; newspaper subscription services for others; business consulting related to management, quality, skill training, personnel recruitment and management, and business management; business information and intelligence, namely consulting and information related to business management and technical agricultural data management; accounting; document reproduction; placement agencies; computer file management; collection of data in a central file; operation of commercial and advertising databases containing information about the goods of others in the agricultural, agro-industrial, and environmental fields; organization of

exhibitions for commercial and advertising purposes for others in the agricultural and environmental fields; business management assistance, professional business consulting, namely business management consultancy, business administration assistance; market studies; assistance and consulting for businesses in relation to information technology, telematics, environment, agronomy, food safety, traceability, all the above-mentioned services being provided in the agricultural and environmental fields.

Class 38

(2) Telecommunications, communication through computer terminals and through communications networks, transmission of information, messages, images via computer, journals, and books, in particular through communications networks, namely electronic mail services, telephone services offered by means of fibre optic cables, downloading and hosting services for images, books, and journals through global computer communications network; news and information agencies; radio communications, namely broadcasting of radio, telegraph, telephone programs; broadcasting of television programs, satellite transmission, namely satellite transmission of radio and television programs, satellite transmission of telephone signals; electronic messaging; dissemination of information messages, data of all kinds, namely texts, graphics, sounds, still and animated images by electronic, computer, telematics means, and by all existing transmission means, namely, provision of access to global computer networks to multiple users for transferring and disseminating a wide range of information, all the above-mentioned services being provided in the agricultural and environmental fields; rental of access time to a database server centre and a computer for handling data.

Class 42

(3) Computer programming; design, writing, production, and development of computer programs, software packages, and computer software; updating and maintenance of computer software; engineering work, namely computer engineering, mechanical engineering; computer system setup analysis; surveying; constitution, updating, maintenance, and reconstruction of databases; technical project studies, namely feasibility studies in the agricultural, agro-industrial, and environmental fields; expertise, namely engineering work, namely geological and pedological expertise; geological expertise; geological prospecting; rental of computer software; urban planning ; research and development of new products for others; biological research; bacteriological research; geological research; technical research, namely geological and pedological research; all above-mentioned services being provided in the agricultural and environmental fields; consulting and assistance related to computers, telematics, the environment, agronomy; agricultural plot cartography.

Class 44

(4) Agricultural services, namely detection and extermination of agricultural vermin, detection and destruction of pests in agriculture, horticulture, and silviculture namely management of tree planting ; consulting, information, and assistance related to food safety; consulting and information in the agricultural field; computer management of farming processes, namely agricultural operation services in relation to vegetable, animal, and wine products.
